I just can't like you, but I really want to.
It's breaking my heart one by one.
I'm hurting inside, but now I just realized that I'm
liking you more than I Thought.

Pre-chorus

I'm helpless, but I'm denying it. I like you but I can't help
it.

Chorus

I'm learning to fall and pick myself up,
I'm learning to breathe when all things get rough.
But one thing I know, I just can't like you enough.

I'm sorry baby, but please believe me.
I just can't do this to her.
This pain's building up, I'm liking you too much.
..and I'm getting ready to explode.

I'm helpless but I'm denying it, I like you but I Can't help
it.

Chorus.

Bridge

help me, save me from this pain. I just can't do this her,
I Cant I cant.
This pain's hurting worse and worse, I'm liking you too
much.

Chorus x2

I'm helpless, but I'm denying it. I like you but I can't help
it.
