Calling you to say hello
I ain't gonna do that, I ain't gonna do that
Going out to see the show
I ain't gonna do that, no no no
Turning on the radio
I ain't gonna do that, I ain't gonna do that
Calling you to say hello
I ain't gonna do that, no no no

And no one will tell me where I should go
If I need anything I'll let you know

Telling you I love you though
I ain't gonna do that, I ain't gonna do that
Chuckling out my stilettos
I ain't gonna do that, no no no
Getting getting really low
I ain't gonna do that, I ain't gonna do that
Calling you to say hello
I ain't gonna do that, no no no

And no one will tell me where I should go
If I need anything I'll let you know
