Everybody needs to belong to somewhere  
Life can feel so alone without some one who cares  
And when life becomes something just to get through,  
That's when I'm glad that I belong to you

[Chorus]

I belong to you  
I belong to you  
You're the one who will never let me down  
Won't let me down  
I belong to you  
Lord, I belong to you

Sometimes life brings more pain than we can bear  
alone  
When hope is gone and I have no more strength to  
stand on my own,  
When nothing helps there's nothing that I can do  
You surround me and show me that I belong to you

[Chorus]

When love is gone there's no arms to run to anymore  
I'm all alone there's no one for me to live for  
Letting go of the things I've always clung to  
That's when I need to feel that  
I belong to you

[Chorus 2x]
