Touch your lips and give me kisses
Be my slave, my heart is I pieces
Lick my fingers, be the one
Don't stop talking and I'll be fine

Ah... I won't get over you

You bite my neckand I feel your skin
What can I say? Or what do you mean?
I wanna touch something, low brow
Let it go, let I go with the flow

Ah... I won't get over you

Talk to me slowly
Talk to me
Breathe, Breathe

Ah... I won't get over you
