There's a new sound calling  
Calling to every man  
As the Holy Spirit's falling  
All across this dry land

There's a generation coming  
That will walk in truth and light  
And their voices will be shouting  
The praises of Jesus Christ

It's time to get right with God  
It's time to get real about Jesus  
Give up your fear,  
Open your heart to the Lord

It's time to get right with God  
It's time to get real about Jesus  
Lay down your life  
That you might live again

People, we've got to keep praying  
For the lives of our young  
Do this in deed, not just saying  
For the battle has just begun

Jesus has made us victors  
When we stand up together as one  
There's work to be done for the Kingdom  
And many more songs to be sung
