When Im a sparrow in winter, you are a seed I find
When Im a heart with a splinter, your blood keeps me
alive
If I could call you a color, youd be the deepest of blues
If I had my pleasure of anything, youd be the one that
Id choose

Chorus:

Now its crystal clear Im falling for you
Now that I can see the mysterys revealed
Now Im coming clean
I can feel my fears released
Now its crystal clear Im falling for you

Im soft like clay
Your hands they mold
For you, I would run away
Just to hear you calling out my name

Repeat chorus

Bridge:

Im broken and empty
Without you, Im blinded
I need you,
I need you near me, I need you near me

Repeat chorus

Please catch me, Im falling for you...
