I'm Not Looking Down
I sit around
Waiting for the world
To come and let me down
And when I've come undone
You meet me where I am
But I cannot pretend
That everything makes sense
Chorus
Help me get my feet back off the ground
All this thinking is killing me
Or am I just afraid to be
Help me to come back around
Either way now I'm not looking down
Underneath
Your sunny sky
I fly and I am floored by You, by You
Every breath you breathe
Has got me feeling free
I'm free indeed
Now everything makes sense
Chorus
Either way, I'm not looking down
