Here's to the ones who don't give up  
[3x]  
This is your anthem, get your hands up  
We are fire inside, we are lipstick and cleats  
We are not going home, and we are playing for keeps  
We are girls with skinned knees, we are concrete and  
grace  
We are not what you think, you can't keep us in our  
place

Here's to the girls on their boards with bruises and  
scars  
Here's to the girls whose fingers bleed from playin  
guitar  
Here's to anyone who never quit when things got hard  
You'll never let them say you'll never get that far

We are fire inside, we are an army asleep  
We are a people awaking to follow their dreams  
We don't have time for your games  
We have our own goals to score  
There are trophies to win instead of being one of yours  
Here's to the girls on their boards with bruises and  
scars  
Here's to the girls whose fingers bleed from playin  
guitar  
Here's to anyone who never quit when things got hard  
You'll never let them say you'll never get that far
