### "Pass The Time"

Visit "[Pass The Time](#)" on MotoLyrics.com

I was born at such an early age  
Hitched to town and walked upon the stage  
We've aged so young but then we've had so much fun  
All in all we know we passed the time ??????

How you do it is no business of mine  
It just passes time, passes time  
How you do it is no business of mine  
It just passes time, passes time, passes time

What are you doing for ??????????  
You've worked so hard ??????????  
Buy the coffins with no focus lines  
Quick relief from all those aching joints that burn in

How you do it is no business of mine  
It just passes time, passes time  
How you do it is no business of mine  
It just passes time, passes time, passes time

You can see it coming home  
Information overload

From the time of leaving the ??????  
Then we started to pass the road  
All the cars will be tilted on the sign  
Just to get to the other side

How you do it is no business of mine
