Dormant vices turned on their devices
Now she's raising money for the sex appeal
And when she grazed her knees upon the Astroturf
All her blood turned green as the TV screamed

Whatever you want to do, do it now and pay later
Whatever you want to say, say it now and pay later
Whatever you want to clean, wash it now and go later
Whatever you want to do, do it now and pay later

Coz it's no problem if you play it cool
Things are different if you act the fool

The electric mistress always sounds so bold
She says I'm free to do anything I'm told
I check the latest newsflash it's sensational!
I feel so seduced tell me to reproduce

Whatever you want to do, do it now and pay later
Whatever you want to say, say it now and pay later
Whatever you want to pray, pray it now and pay later
Whatever you want to do, do it now and pay later

Coz it's no problem if you play it cool
Things are different if you act the fool

Whatever you want to do, do it now and pay later
Whatever you want to say, say it now and pay later
Whatever you want to clean, wash it now and go later
Whatever you want to do, do it now and pay later

Coz it's no problem if you play it cool
