if the deal is dipped in honey
well i won't hold my breath
because the contract is getting wet
and if the style scares somebody
the scene is redefined
and the blame or the blunder
yeah the blunder's mine
i question my design
i won't pretend i'm blind
if you're wasting all my (wasting all my) time

and if the feel is for the money
i won't be reassured
if the point's only been ignored
and if the style scares somebody
the scene is redefined
and the blame or the blunder
yeah the blame or the blunder mine
i question my design
i won't pretend i'm blind
if you're wasting all my (wasting all my) time
