Fear is a law  
and hate is a crime  
let love dissolve  
the violent kind

smile  
i want to see you smile  
smile  
i want to see you smile

here inside  
in transition  
where you decide  
laws  
often wrong  
recognize them  
redefine them

everytime you  
smile  
i want to see you smile  
smile  
i want to see you smile

smile

smile  
i want to see you smile  
smile  
i want to see you smile  
smile  
i want to see you smile

smile
