It happened in the summertime  
My cousin and I read the line  
The open book shook our comfy lives  
Ooooh

Destiny revealed to us  
Descending from his mystery bus  
Aaaah

'Til then we thought a permanent thing  
Meant a permanent thing  
But a permanent thing  
Is no permanent thing  
No we've no permanent place to play

And now and again aftershocks  
Scar our thoughts with molten rocks  
The scorching sun lies a touch ahead  
Ooooh

The matter of time taught to us  
Our parents would not be there to fuss  
Aaaah

'Til then we thought a permanent thing  
Meant a permanent thing  
But no permanent thing  
Is a permanent thing  
No we've no permanent place to play

And I remember talking about time  
And I remember shivers down my spine (X2)  
And I remember shaking
