"House Like That"

Visit "[House Like That](#)" on MotoLyrics.com

1st Verse

2nd floor, apartment 10

Countin' change to pay the rent

But you can feel when you walk in

There's somethin' priceless in there

2nd Verse

For a satellite dish and backyard slide

Family of four in a double-wide

There's so much love inside

It spills out in the yard

Chorus

I wanna live in a house like that

Where love wears out our welcome mat

And our hearts know that's where it's at

I wanna live in a house like that

Live with you in a house like that

(Loving you in a house like that)

3rd Verse

Big ol' mansion on a hill

Wanna buy you one, if I can, I will

Oh, but if I can't, you'll love me still

'Cause what matters most of all

4th Verse

Is down the road in a little shack

With a front porch swing and a garden out back

Two old people been in love like that

Since the first time they kissed

(Repeat Chorus)

Bridge

A place to watch our babies grow up

Well, you never know who might show up

When they've got babies of their own

They'll have a place that's always home

(Repeat Chorus)
