I try to find a lesson I can learn
Without abuse of my own
It seems I'm getting nothing in return
Even if I try, everyday I fall

Left all behind, you're never satisfied
Died for your greed
All you have now is a bait on a line
You'll never know how I feel

What if all comes down tonight
I won't be the only one
Can't find a way I'll be lost within
and I'm doing all I can
I never let down the honest man
It's just the path I lead gives me nothing

Our life is like a black river running
In your storm on the way
I'm drowning and it's not what I wanted
If you change ...it stays the same

What if all comes down tonight
I won't be the only one
Can't find a way I'll be lost within
and I'm doing all I can
I never let down the honest man
It's just the path I lead gives me nothing

Find my way back home
Then I'm free to roam

What if all comes down tonight
I won't be the only one
Can't find a way I'll be lost within
and I'm doing all I can
I never let down the honest man
It's just the path I lead gives me nothing
