Hamster, turning round in your wheel  
I've got something to tell you  
I can harness your feel

Dynamo for electricity  
You empower my feelings  
Give me light for me to see

So won't you give me some food?  
I really need to get some energy in me  
Give me some  
I really need to get some energy in me

Give me some  
The world is turning, kicking, screaming 'round my  
little head  
To spread it on my bread  
Don't you know that I spread it on my bread?

Rest yourself you've been long on your feet  
If I buy you a matchbox  
Will you keep it all neat?

Radiate, you're no flash in the pan  
You're the battery incarnate  
I'm an innocent man

So won't you give me some food?  
I really need to get some energy in me  
Give me some  
I really need to get some energy in me

Give me some  
The world is turning, kicking, screaming 'round my  
little head  
To spread it on my bread  
Don't you know that I spread it on my bread?
