"Into The Night"

Hey Venus did you catch the sun?
Hey Venus did you catch the sun?
Whilst searching for the sound that shines
Into the night into the night into the night.

She blew my mind up by remote control.
Where my ears are you'll see a hole:

Take a look inside
and we will fly into the night.
On the horizon we can hear a noise.

Coming at us with an ancient poise.
Professorarus come and teach the sound.
That shines in a light.
Into the night.
Into the night.

Shine! shine through the milky way
keep all the ghosts at bay.
Shine through the milky way.
Shine! shine through the milky way
leave me in disarray.
Shine through the milky way.

Was so relaxed I threw my watch into the sea and
watched it drift away.
Consumated as a castaway still searching
for the sound that shines
a light into the night.
Bring all your friends
and get them all involved.
Roll up your sleeves
and get the problem solved.
Together will build a light that shines.
Into the night.
Into the night.
Into the night.

Shine! shine through the milky way
keep all the ghosts at bay.

Shine through the milky way.
Shine! shine through the milky way
blind me by ricochet.
Shine through the milky way.
Shine! Shine through the universe!
into the night immerse.
Shine through the universe!
Shine! Shine through the milky way.
rise up and fly away.
shine through the milky way
keep all the ghosts at bay.
Shine through the milky way.
Shine! Shine through the milky way
leave me in disarray.
Shine through the milky way.
