Will you cut my hair long?  
Right down to my bottom, nobody will sit next to me  
when  
i'm on the bus,  
will you cut my hair long?  
Don't make any fuss  
Will you cut my hair long?  
Over my shoulders, will you cut over my eyebrows and  
over my ears? If  
the future is in the past, I won't hear anything Will you  
cut my hair  
long? Why less? Why not? Scissors! Will you grow my  
hair when I grow  
up, grow up? Will you cut my hair long? Right down to  
my bottom.
