

Super Furry Animals "Waiting To Happen"

Visit "[Waiting To Happen](#)" on MotoLyrics.com

I've been waiting, oh so long
For the waves just to carry me on
Spent so many years in fear
That this day would never appear

But the shackles today are loose
And we're waiting to happen

Turn it to eleven
Set your sights afar
May the force be within you
I'm following my shoes

Wonder woman spin around
Come on up here revive what I found
Spent so many days in fear
That this time would never come near

Now the borders have disappeared
And we're waiting to happen

Turn it to eleven
Set your sights afar
May the force be within you
I'm following my shoes

I'll be near you
I'll be anything you want to
I'll take you all the way
All the way
