[verse 1:]

I don't believe that we were put together not to be  
together  
and I don't believe there's anyone out there that can  
love me better  
I don't believe that you know how much I miss seeing  
your pretty smile.  
of course we had our ups and downs  
but I gotta have you around me cause

[chorus:]

I feel it all over my body (I feel it all over my body)  
I dream about you when I sleep (yea)  
you're the one for me (you're the one)  
you're the one for me (you're the one)  
all the signs say that  
ever since the day that we laid eyes on each other baby  
you're the one for me (you're the one)  
you're the one for me (hey)

[verse 2:]

I don't believe that you know how much I melt every  
time I smell your scent boy  
and I don't believe (I don't believe) I got myself in this  
predicament  
I'm sorry (I'm so sorry)  
for everything I ever did boy  
I'm sorry (I'm so sorry)  
and I'm begging you, begging you,  
begging you, begging you please come back home

[chorus:]

I feel it all over my body (I feel it all over my body)  
I dream about you when I sleep (yea)  
you're the one for me (you're the one)  
you're the one for me (you're the one)  
all the signs say that  
ever since the day that we laid eyes on each other baby  
you're the one for me (you're the one)  
you're the one for me (hey)

[bridge:]

when I lay in my bed at night  
I'm hoping and praying that you feel the same way that  
I do deep down inside (inside)  
and that feeling you just can't control  
it makes you wanna just call me  
and tell me how much you really miss me  
it makes you wanna call me  
and say that you can't wait to hold and kiss me, kiss me  
all over

[chorus:]

I feel it all over my body (hey)  
I dream about you when I sleep (dream)  
you're the one for me (you're the one)  
you're the one for me (you're the one)  
all the signs say that  
ever since the day that we laid eyes on each other baby  
you're the one for me (you're the one)  
you're the one for me (hey)
