Communicate  
Hey it's great  
Got to, got to tell you  
I just can't wait  
Communicate  
Right now  
Got to, got to tell you  
I'll show you how

You wanna say yes  
Shake your head up and down  
You feelin' sad  
Try a frown  
Use your hands  
Hey you bet  
I even know some hands that know the alphabet

Communicate  
Yeah  
Right now  
Got to, got to do it  
I'll show you how

If you got to say no  
Shake your head from side to side  
Make a connection with the wink of an eye  
Point your finger  
From here to over there  
And when you're feelin' happy you got to smile  
everywhere  
Communicate  
Communicate  
Communicate  
Communicate  
(DeeDee plays her keytar between the communicates)  
Ahhhhhhhhhh.....  
Communicate
