I can dance with you
You can dance with me
You're the kind of friend a friend could ever hope to be
You betcha
We're the very very best of friends
You're a good someone
We can have some fun
'Cause we're gonna be friends with everyone
You betcha

We're the very very best of friends
We go up and down and all around together at the
speed of sound
I wouldn't have any other way
We can work together
Play together
Care for one another 'cause we're laughing and we're
singing everyday
You can count on me today
And appreciate the love that comes my way

You betcha
We're the very very best of friends
You betcha
We're the very very best of friends

I can dance with you
You can dance with me
I can dance with you
You can dance with me
You betcha
We're the very very best of friends
Oh yeah
