I'm gonna love you in my own way
My honey always thinks I should do
Like then they only want to get through the day
Hurry for the next best thing
To come along and now I'm mad at you for
Rushing in and making love to the
Wrong girl, the wrong guy
Not me I'm hooked on you

For better or worse
Let's make it better
So glad it's me you want
I just want to say
Of being together
It's always you

Chorus
I'd choose you any day over the moon
No rocket ships or _____
Would better you
Cause you love me
Yeah you do
Yeah you do

I'd choose you any day under the sun
No problem if I were the only one
And you love me
Yeah you do
Yeah you do

I know you love me
Love Me
Love me ye-e-ah

I'm gonna tell it to you my own way
Now how the _____ just to you
I've got a rhythm here in my heart
Waiting for the chance to say it
And when I do it's gonna ring true
No rushing in and tripping up on
The wrong words, the wrong time

Trust me I've thought this through

For better or worse
We'll make it better
So glad it's me you want
I just want to say
Of being together
It's always you

Chorus

I'd choose you any day over the moon
No rocket ships or _____
Would better you
Cause you love me
Yeah you do
Yeah you do

I'd choose you any day under the sun
No problem I were the only one
And you love me
Yeah you do
Yeah you do

I know you love me
Love Me
Love me ye-e-ah

I'd choose you any day over the moon
No rocket ships or _____
Would better you
Cause you love me
Yeah you do
(Over the moon)
Yeah you do

Some ways I'm messing with better things
Searching for more and more and more it never ends
I know cause I got the very best
I'll settle for nothing less than you

You're my all
(My all)
And you know
(And you know it)
I've found me everything and it shows

I'd choose you any day over the moon
No rocket ships or _____
Would better you
Cause you love me
Yeah you do

Yeah you do

I'd choose you any day under the sun
No problem if I was the only one
And you love me
Yeah you do
Yeah you do

I know you love me
Love Me
Love me ye-e-ah

Repeat chorus and add lib to end
