Don't worry, no (yeah)
We're gonna make it
So we're in the zone
I'm ready, ready, steady
Here we go (yeah)
Just like a rocket, watch me taking off
Off, off

Baby it don't matter
It don't matter if we put up a fight
Expect you tonight, but its alright
Let the music, let the music
Let the music do what it like
Do what it like

'Cause tonight is the night
That we're gonna lose it
We're gonna lose it
Tonight is the night we're losing
Losing all control
Just let your body go, go, go, go
Go, oh oh oh oh
Just let your body go, go, go, go
Go, oh oh oh oh

Let's party on (yeah)
Like there's no tomorrow
Tomorrow's gone
Let's bring the future, future
Bring it on, on (yeah)
Like it's futuristic
Let's get down and do it
Let's get down and do it

Baby it don't matter
It don't matter if we're put up a fight
Expect you tonight, but its alright
Let the music, let the music
Let the music do what it like
Do what it like

'Cause tonight is the night
That we're gonna lose it
We're gonna lose it
Tonight is the night we're losing
Losing all control
Just let your body go, go, go, go
Go, oh oh oh oh
Just let your body go, go, go, go
Go, oh oh oh oh

Baby as long as you're willing to try
Just to let go and not put up a fight
Let it take over, over your mind
Over your mind

Baby it don't matter
It don't matter if we're put up a fight
Expect you tonight, but its alright
Let the music, let the music
Let the music do what it like
Do what it like

'Cause tonight is the night
That we're gonna lose it
We're gonna lose it
Tonight is the night we're losing
Losing all control
Just let your body go, go, go, go
Go, oh oh oh oh
Just let your body go, go, go, go
Go, oh oh oh oh
Yeah
