Uh - Kiss Me

Saturday
The club is heaving
Everybody sway
Come and play
The music represents
So celebrate
Come dance
Come dance, come

The music represents
So maybe take a chance
Don't touch
Take your place
Look into my eyes
I'm open to romance
It close in every dance
Freak on the _____
Take me by surprise

And you feel it?
I feel it
We feel it
We do we do
No one even has to know
Concealing the feeling
Your eyes know just what to do
We're all here to party

Chorus
Undress me
From head to toe tonight
So sexy
The way you look me up and down
Uh kiss me
Undo me with your eyes
Oh baby
That's right undress me

Serenade

You're looking loop into the sync of
I'm a slave
I'm a slave for you
To the base
My heads still bouncing
Every bounce I make
Lean back
I'm bouncing on you
The music represents
My inner confidence
No inhibition can
Override the saint the sinner
I'm open to the base
I must take a chance
It we both go ahead
Take me home tonight

And you feel it?
I feel it
We feel it
We do we do
So let your guard down tonight
Concealing the feeling in
Your eyes know just what to do
So come on and you know it

Chorus
Undress me
From head to toe tonight
So sexy
The way you look me up and down
Undress me
Undress me with your eyes
Oh baby
That's right undress me

Undress me all night

Freak me nicer than an ice cream cornet
Undress me

Dancing to the base and drum now
We take it with a nice component

And you feel it?
I feel it
We feel it
We do we do
And no one even has to know

Concealing the feeling in
Your eyes know just what to do
We're all here to party

Chorus
Undress me
From head to toe tonight
So sexy
The way you look me up and down
Undress Me
Undo me with your eyes
Oh baby
That's right undress me

Undress me
From head to toe tonight
So sexy
The way you look me up and down
Uh kiss me
Undo me with your eye-eyes
Oh baby
That's right undress me
