When I saw you I thought that I found a friend
Just a wrong turn resulting in a dead end
Dirty dreaming before I turn off the light
False hope is useless so for now I'll just say good night

Both committed straightjacket we say goodbye
In a white padded room we see eye-to-eye
This medication sure makes me feel funny
Don't think I'm cheesy, but I think you're money, let's
fuck

Only a fool would think you looked at me
Fast forward to the ending

I'm hip to your latest obsession
I'll be the best that you've ever had
Don't tell me that you have to think about it
Screwed if I do but damned if I don't

Now I need you to look past these rules we bend
Complications, so tie up all your loose ends
Out the window I came into your backdoor
Just keep it quiet no one else should know the score

Only a fool would think you looked at me
Fast forward to the ending

I'm hip to your latest obsession
I'll be the best that you've ever had
Don't tell me that you have to think about it
Screwed if I do but damned if I don't

So our hands are now painted red
Don't forget all the words I said
Looking back now it all seems so funny
You know I'm cheesy I still think you're money, lets
fuck!

Only a fool would think you looked at me
Fast forward to the ending

I'm hip to your latest obsession
I'll be the best that you've ever had
Don't tell me that you have to think about it
Screwed if I do but damned if I don't.
