Fall to the ground with me the streetlights burn so low
Stop before we go too fast this last dance should be
slow

Fuck compatibility as we're peeling off our souls
Say what you will about destiny, has it set us free so
just let go
Hate hate the world today and all those nights you
made me pay
Peddled love for money shouldn't suit me
Fight night to make this true and take all faults and
loose them in you
I don't think its crazy cause' it feels right

What thoughts of a lifetime? I'd trade it for one more
day
Are you trapped in who we used to be?
What thoughts of a lifetime? I'd trade it for one more
day
You'll find it here, you'll find it somewhere

Go one more round, you see by the morning who would
know
Watching the end in a daze with me, what a sight to
see enjoy the show
Hate hate the world today and all those nights you
made me pay
Peddled love for money shouldn't suit me
Fight night to make this true and take all faults and
loose them in you
I don't think its crazy cause' it feels right

What thoughts of a lifetime? I'd trade it for one more
day
Are you trapped in who we used to be?
What thoughts of a lifetime? I'd trade it for one more
day
You'll find it here, you'll find it
somewhere
