You led battle field at the bottom where the scum lies
Take a good look at your face with your pathetic eyes
Reachout to hit the men through to where the motor lies
Pulling that sound on the speaker without a brain
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
Here comes the rain
Wash it away
Here comes the rain
Here comes the rain
Wash it away
Here comes the rain
You led battle field at the bottom where the scum lies
Take a good look at your face with your pathetic eyes
Reachout to hit the men through to where the motor lies
Pulling that sound on the speaker without a brain
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
Here comes the rain
Wash it away
Here comes the rain
Here comes the rain
Wash it away
Here comes the rain
Here comes the rain
Wash it away
Here comes the rain
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
Check your head up check check your head up
