Leave your body on the floor, I've got something better here.

Better than you had before, better than you ever saw.

Jump, jump, closer yet. Close as you may ever get.

Jump, jump, closer yet. Close as you may ever get.

Standing on the precipice, lean too far and you'll fall in.

Arms of the hypnotist open up and let you in.

Jump, jump, closer yet. As close as you may ever get.

Jump, jump, closer yet. As close as you may ever get.

Press your face against the glass and get through it how you can.

Close enough to singe your hair, pour it's voice into your ear.

Jump, jump, closer yet. Close as you may ever get.

Jump, jump, closer yet. Close as you may ever get.
