meeting you was no pre-planned
quickley all our time began
to slip away, it's gettign late

we don't have to say goodnight
we could just sit here tonight
if you can

don't wanna talk to anybody else
hang around with someone like yourself
and i will listen to every word you say
if it's okay with you
i'd like to keep talking to you

all my life i've waited for
someone who would not ignore
my feelings, oh it's getting late

we don't have to say goodnight
we could just sit here tonight
if you can

don't wanna talk to anybody else
hang around with someone like yourself
and i will listen to every word you say
if it's okay with you
i'd like to keep talking to you

we don't have to say goodnight
we could just sit here tonight
if you can

don't wanna talk to anybody else
hang around with someone like yourself
and i will listen to every word you say
if it's okay with you
i'd liek to keep talking to you
