I follow you into the dark, to find you
Heard your whispers in my heart, to night you
Let me go for someone who wasn't me
This is not what it's supposed to be

Secret faces, show me who you are
How did you place this behind the darkest stars
Oehwoohwooh, oehwoohwooh, oehwoohwooh
Secret faces, oehwoohwooh

I'm walking like no direction, to sense you
But I don't trust the future, without you
There's a love like that is feeding
You got a look at me, to see it

Secret faces, show me who you are
How did you place this behind the darkest stars
Oehwoohwooh, oehwoohwooh, oehwoohwooh
Secret faces, oehwoohwooh, oehwoohwooh

Turn the light on, turn the lights you do
Turn the light on, turn the lights you do

Secret faces, show me who you are
How did you place this behind the darkest stars
Oehwoohwooh, oehwoohwooh, oehwoohwooh
Secret faces, oehwoohwooh

Secret faces, show me who you are
How did you place this behind the darkest stars
Oehwoohwooh, oehwoohwooh, oehwoohwooh
Secret faces, show me who you are
