"Where We Belong"

Listen to what I gotta tell you
Are you ready for what's coming now
I've been hanging on to the secret

Where do we go for here
Is this road unclear

All this time, you were next to me
This perfect lie, which only you can't see
Open my eyes to where we belong
We can justify now, where we standing
Bigger crime, to pretend
There's only one way to where we belong

It's time to become a addiction
But how are you supposed to know
Your image is right there before me

Even tough I'm all alone up here
Is this road unclear

All this time, you were next to me
This perfect lie, which only you can't see
Open my eyes to where we belong
We can justify now, where we standing
Bigger crime, to pretend
There's only one way to where we belong

This is where we are
We just can't hide
Nothing but the truth
Are you ready for the right
Are you ready for the right

All this time, you were next to me
This perfect lie, which only you can't see
Open my eyes to where we belong
We can justify now, where we standing
Bigger crime, to pretend
There's only one way to where we belong

All this time, you were next to me
This perfect lie, which only you can't see
Open my eyes to where we belong
We can justify now, where we standing
Bigger crime, to pretend
There's only one way to where we belong
Where we belong
Where we belong
Where we belong
