Into the silence of war, I can hear it all  
I've been to this place once before alone  
In blood, in pain, in pouring rain  
We're searching for one thing  
And the time is here

I've sold my soul to those who'll never know  
In a cryptic world that's undisclosed  
An English sea, Judas kiss draped over me  
Annihilation of the piety  
Malevolence, like venom it consumes  
But I nurture animosity  
Rip out your eyes, with deception, martyrize  
For only death will bring redemption's smile  
The meridian's nigh

Into the silence no more, I can't hear it all  
Obsidian perceptions stonewalled  
My blood, my pain, my tragedy  
Can withstand anything  
That you throw at me

Well now you scream, soothing to bloody ears  
Ring the first bell of this victory  
When all you feel is the culpability  
Of your treacherous activity  
Payback's a bitch when it's stuck in your throat  
As that one night comes back to haunt you  
This pain I'm inflicting, it must parallel  
Your blaspheme for my suffering  
With your head

Noone knows these words I hide (2x)  
An English sea, Judas kiss draped over me  
Annihilation, piety  
Noone comes out alive  
Ride tonight

Away from a crooked sun abducted the earth  
Intolerance will destroy everyone, inanimate  
One hypothetical ideal of something new destroying

you  
Enter the negative, reanimate

We rise tonight, black sails  
Under the black moon the black sails of armageddon
