Oblivious, this morbid sense of power  
Show no weakness to pain  
Silence, internal screaming, make it stop  
I am control, you're the slave

Cold, your words they pierce my skin through my soul  
Rip the flesh from the bone  
Dead rivers of complexity  
Adamant they can't see

Without reason we've come to destroy you  
To steal the essence of life  
And to steal your breath away  
I won't fight this habit no more  
I'll use and abuse like a whore

Oblivious, this morbid sense of power  
Show no weakness to pain  
Silence, internal screaming, make it stop  
I am control, you're the slave

In pain, I will be the one to refrain  
Vomit nothing but blood  
Dead, these rivers of complexity  
Adamant you will see

Without reason we've come to destroy you  
To steal the essence of life  
And to steal your fucking breath away  
I won't fight this habit no more  
I'll use and abuse like a whore  
I won't fight this habit no more  
I'll use and abuse like a whore

First step is choose your fucking poison

Don't you run away never turning your back on reality  
??  
Don't you run away never turning your back on reality

Laceration is the end, it's a long cold death

Choose your poison  
It's time to motherfucking choose your poison
