To take my breathe away  
You can save my way  
To take my time again  
We are just good friends  
There's no matter  
Who we trust and believe  
You can sell my soul  
This is how we live  
Couse no one save us, no one save us  
You can save my way  
You can save my way  
Couse no one save us, no one save us  
You can save my way  
You can save my way  
Couse no one save us, no one save us  
So cold so lonely So cold so lonely  
So go and save the frozen way  
So go please let it out  
So go and save the frozen way  
So go please let it out  
So go and save the frozen way  
So go please let it out  
So go and save the frozen way  
You are the same don't throw me out  
You can save my way  
You can save my way  
Couse no one save us, no one save us  
You can save my way  
You can save my way  
Couse no one save us, no one save us
