

The Superjesus "Fall To Rescue"

Visit "[Fall To Rescue](#)" on MotoLyrics.com

You could have anything and take it to flight
Words you'll be relishing forever in time
It's all I could think about, it's all that I could see
Now that your not around with me, with me

And it's all I could do, if you need to
When I fall to rescue, if you need

Memories letting down and proving me wrong
Waiting to come around, distance to long
It's all that I am missing when I know, I know

And it's all I could do, if you need to
When I fall to rescue, if you need to
Now it's all I could do, if you need to
When I fall to rescue, if you need to

You could have anything and take it to flight
Words you'll be relishing and favouring in time

And it's all I could do, if you need to
When I fall to rescue, if you need to...
