She's far...
So far!
And I want...
To be there now!

Not Mars,
But Far...
My brain is...
With you now!

I want to be there now, I want to be there now!
I want to be there now, I want to be there now!
I said I want to be there now, I want to be there now!
I want to be there now, I want to be there now!

I will try not to say it to you...
I will try not to say it to you...
And I'll try not to say it to you...
I said I will TRY!!!
