I just wanna play a board game
I just wanna play a board game
When the power goes out
When the power goes out
I know you wanna get on top of me
But I'd rather play monopoly
Let me hear you shout
I know you wanna get frisky
But I'd rather get risky
Let me hear you shout

I'm not looking for some stupid hoe
Who gets \$200 every time she passes go
I want a girl who's sweet and true
As the the little green house on Baltic Avenue
Takes the B&O all the way to Park Place
Smile every time that I see your pretty face
You can be the iron and I'll be the shoe
Come on baby girl let me show you how we do

I just wanna play a board game
I just wanna play a board game
When the power goes out
