Didn't I tell you to forget your empty dream, just give

up on her
Are you still living with an attachment, I don't
understand you
Since long ago, me and her talked on the phone all
through the night
That's the kind of relationship we have
Your not being able to acknowledge that is making me
frustrated
I'm the only one

This is where it ends you've done enough
I'll understand your tears when it's time for you to leave
Now let's shake hands like men
Because she's gonna be in my embrace smiling

That lovable smile is mine, turn around
They say misunderstanding is freedom, even if you
don't want to acknowledge it that's reality
Why isn't it getting through to you, give it up already
Your not understanding our relationship is making me
frustrated
I'm the only one

This is where it ends you've done enough
I'll understand your tears when it's time for you to leave
Now let's shake hands like men
Because she's gonna be in my embrace smiling

You can no longer have more
Look over there that beautiful girl
How can you not love her
The person that knows my burning heart
She's the only one

I know you want me right now
The man you want is me

This is where it ends, you've done enough
I'll understand your tears when it's time for you to leave
Now let's shake hands like men
Because she's gonna be in my embrace smiling
