[Supernatural]

I call it like I see it on stage like Supernatural  
Internationally known

[Verse One]

I have, travelled the planet and touched many foreign  
lands  
From the streets of London to the, African sands  
I've always had a plan to make money expand  
I can't count how many times a mics been in my hand  
Who would of ever thought that I'd have so many fans  
Thats why I rock like every time is my last stand  
I remember growin up, as a country boy  
I never dreamed I'd have a gift that'd bring me so  
much joy  
Now I'm a globetrotter, passport majorly stamped  
Give me 25 minutes, crowd majorly amped  
Whether I'm going third, second or first  
I'm not gonna stop till I take over the earth  
So that's why I rock and make places my own  
I've travelled the planet just to serve fakers and clones  
When it comes to this mic I'll never leave it alone  
That's how I got the rep, I'm internationally known

[Scratches]

Internationally known (x4)  
(It's like travelling all over the world  
Many different places  
Just to lace the mic  
I live for the game  
International man of danger  
Let's go)

[Verse 2]

No matter where I've been, whether abroad or the  
states  
When I'm in the place they always recognize the face  
The way the mic gets laced with impeccable taste  
I'm known for stealin the show and leavin without a  
trace  
And after that, it's back to the bus or the plane  
To puff a few L's and tune in the video games

Next state, next place, next mic, next flight  
No matter how tired, the show must be tight  
So I'll rock for any crowd, whether you're black or  
you're white  
This shit is easy to me like ridin a bike  
Or flyin a kite, most deadliest on the mic  
I'm like the king cobra with a poisonous strike

[Scratches]

Internationally known (x4)  
(You know, I live for the game  
Worldwide traveller  
The B-boy rolling  
Not too many different boards  
My mics for hire  
Lets go)

[Verse 3]

When I was in Japan, they was yellin "Ichiban"  
And for those who don't know, that means I'm number  
one  
When I was in Paris, before I said I need a beat  
I would pull up a seat and say bon appetite  
The game got two flavours, one bitter, one sweet  
We ain't never gonna stop till the mission's complete  
When I was in Africa, I was revered as a king  
This is the year where they kneel and kiss the ring

[Scratches]

Internationally known (x8)  
(I live for the game  
I'll never let the game take me under  
Forever I will remain interntionally known  
Killing all clones and fakers  
This is brought to you by DJ Rhesmatic  
Big up the sound  
Supernat, 2 dot dot two)
