"Know The Score"

Visit "[Know The Score](#)" on MotoLyrics.com

When I feel alone in this world seems like you're miles
away
And trying to talk things through but I can't think what
to say
I won't waste my tears on...

All the time I spent with you
And all the change you put me through
The lies you told were meant to feel so good
So I thank you for mistakes I've made
It's thanks to you I'm no longer afraid

So I thank you
And I'm stronger now
And I don't need to rely on happiness
From other people, I'm not alone

I see that I am stronger on my own
