Take this chance
Climb every mountain with me
I'll lead the way
You'll love someday

Cross the land
You and me weren't meant to be
Apart like this
I've saved each kiss

Our love will carry on...
Our love will carry on... (forever, forever)

Now you've gone
Hurts me every night
And day without you here
So close to tears

Grey filled sky
Shadows every thought I had
Of me and you
Everything I do

Our love will carry on...
Our love will carry on... (forever, forever)

Our love will carry on...
Our love will carry on...

Our love will carry on... (forever, forever)
Our love will carry on...
