Cos' I've been down before
And shot down when I was just turning around
I let you go because you wanted so
Why are you back? Who asked you so?
You never said
I never said
We let the time run out again

Now It's not time to blame
It's not time to be ashamed
Now you can go back
With your bloody blow to mum and dad

Oh please

There's nothing else to talk to me
Don't want your cryings your regrets, just get out
There's nothing else to talk to me

Cos' I've been down before
And shot down when I was turning around
I let you go because you wanted so
Why are you back? Who asked you so?
You never said
I never said
We let the time run out again

Now It's not time to blame
It's not time to be ashamed
Now you can go back
With your bloody blow to mum and dad

Oh please

There's nothing else to talk to me
Don't want your cryings your regrets, just get out
There's nothing else to talk to me
