"Time"

Visit "[Time](#)" on MotoLyrics.com

Oh! Time is my friend
And I know this time is coming to get you
Oh! Time is my girl
And I know that girl has come

For those who feel not well
For those who lost the way
For those who sang this blues
I tell you, please welcome on board

Oh! I'm caught by today
And I know today is coming
to take you too!
The epoch has come
Winging down, above us, it's come

For those who feel not well
For those who lost the way
For those who sang this blues
I tell you, please welcome on board

Oh! Time is my end
And I know the end is coming to take me
All...fine battles of words
Running out, and us...we're done

Time
