"Turn It Down"

Visit "[Turn It Down](#)" on MotoLyrics.com

Leave your minds open
Lift your souls up to the stars
Memories come to me
Like stones of sickening sounds
Please help me turn it down
Turn it down

Keep your ears awake
When the music starts to play
Phrases come to me
Like stones of sickening sounds
Please help me turn it down
Turn it down
Turn it down, turn it down

Yes I'm still well alive
And I've still got this life
Well your music sounds loud
I can't bear with it now
I prefer to go home
Where the chords are more sound
Now I had much enough
Help me please turn it down

Turn it down, turn it down
Turn it down, turn it down

Turn it down
