All around the world these days  
I see hurt and I see pain  
I see division  
I see separation  
I see nations fighting nations  
I see brothers killing brothers  
Oh man it's getting crazy  
As I think back through history  
I see that it has always been this way  
Even from the very first days  
I don't know about you  
But as for me  
I'm getting a little tired of this  
It's ridiculous  
No matter where you were born  
No matter what color you are  
No matter how much you have  
It doesn't matter we're all the same

Now it's time to love  
It's time to come together  
Like the Good Book says  
Love your neighbor as your brother  
We're all the same  
In the eyes of the Father  
So look next to you and grab the hand of another it's  
time to love
