going back to Tuscon  
going back to where things went wrong  
gonna find out why my friends are haunted  
by the things that they've done wrong  
going back to Tuscon  
back to where I once belong  
gonna see if I can be the reason for the disagreements  
going back to Tuscon  
don't wanna grow up there again  
now I see how some of them get grounded  
stuck to the chairs they're sitting in  
going back to Tuscon  
back down the old high ten  
gonna find out why I don't know anything about  
anything now  
going back to Tuscon and I'm down  
I'm down  
so I'm getting out of tuscon  
taken everything that ain't their town  
gonna wave good-bye to the unfortunate who stuck  
around  
going back to Tuscon and I'm down  
and I'm down, I'm down
