Got a show tonight
It's gonna pay my rent
And what I got left over
Baby, it's all been spent
But there's no cover charge for me
I'm in the band
I'm the man with the goldtop in my hand

It's my kickass life
It's my kickass life
It's my kickass life
No matter how good it gets
It could always get better

Another honey to have
Another mile to go
So let's go
Let the punks be punks
So I can play that rock 'n' roll
You know that through it all
I can see through the smoke and the lights
It's all bullshit baby, but I do it night after night after
night

It's my kickass life
It's my kickass life
It's my kickass life
No matter how good it gets
It could always get better
