Down down down  
That's the way we're traveling  
Our social fabric unravels  
But who pulled the string  
Philosophers politicians or the school teachers  
Game of life and death and we're sitting on the  
bleachers  
What happened to our voice  
What happened to our influence  
Tell me who will listen to uneducated congregants  
And why should they when all we have to say is  
Bumper sticker doctrine and cute catch phrases  
Does this amaze us that no one will take us seriously  
We talk big but then we sit in atrophy  
Apathy they make comedy of our hypocrisy  
Unaware of true biblical philosophy  
So we gotta watch what we do and what they see  
Cause we represent christ plus christianity

The underground sound here to take your mind higher  
I pound the ground burn it down like fire  
We walk the long path, still on the first half  
You escape reason, we escape wrath.

God is not concerned with gallup poll opinion  
Or if the whole human race were to disagree with him  
Truth is what I spit  
But you ain't hearing it  
Or you ain't having it  
But it don't matter which  
'cause God is still himself  
And he could still strike us dead  
Even in the pink of health  
You don't think I should say that  
You say you don't believe that  
Our opinion counts for zero,  
And that is simply that,  
Like I'm mojo that's how it goes that's just the  
Way of things,  
God is not impressed disagreeing won't change  
anything,  
We all must beg for mercy and surely god'll show it

There's a reason for our hope you ask me how I know it  
God said it and that without a doubt  
"he who comes to me I will in no way cast out"

The underground sound here to take your mind higher  
I pound the ground burn it down like fire  
We walk the long path, still on the first half  
You escape reason, we escape wrath.

(bridge)

A city under siege who will you believe  
Champions of truth or of apostacy  
You wanna take on me  
You take on elohim  
He controls all that was is and what will be
