Hey!

Let me drown in an ocean of devotion

Let my joy be in service and love my emotion

Let me be closer than your right hand

Tighter than your left hand and let me be a Godly man

Till the day I die, Till the fire's just smoke

I will go for broke till my last word's spoke

If I limp then I will run with a limp

I'll win some and lose some, but I'll make my attempt

Last breath before the candle flickers out

I will speak the name of Jesus

I will keep fighting to the knockout, even if I'm knocked out

Hitting hard, I'm hittin' for the belt

My soul will keep going till my body buckles

I will drop my bloody knuckles

Carry us to Heaven by the truckfulls

I will be as stubborn as a pitbull

Neutral as a nazi, resolute like Ghandi

I will keep preaching till I'm took out

Till I'm in Heaven en route

No sell out

Last breath before the candle flickers out

I will speak the name of Jesus

Last breath before the candle flickers out

I will speak the name of Jesus

Last breath before the candle flickers out

I will speak the name of Jesus

Last breath before the candle flickers out

I will speak the name of Jesus
